**For the Japan Internship Program 2025**, there are two types of internship opportunities available: an online internship, where interns can work from

their home countries, and an in-person internship, where interns will have the opportunity to work in Japan with small and medium-sized enterprises (SMEs).

Through these programs, selected candidates will gain valuable internship experience, work with Japanese companies (SMEs), and immerse themselves in Japanese work culture. The programs also offer a chance to learn about business etiquette and exchange ideas with professionals in Japan.
